FUTURA

"We write the record of our lives
on the scroll of time. Memories of friends
we have made, ecstasies we have lived,
and unsullied joys we have felt, through the years,
from the pages of our book of life.
Lest we forget, we pause from time to time
and turn the pages of this to live again
the past thrills, remember friends,
and recall pleasant associations."

Walter P. Phillips

Our efforts have been directed to leaving something between the pages of this book, The FUTURA, that can remain as a testimonial to the years of learning and enjoyment, that have come to those whose names and faces appear here in.

As Editor of the 1969 FUTURA I would like to express my thanks to all those who helped me produce a yearbook that we hope you consider successful.

Sincerely yours,
Marty Haas

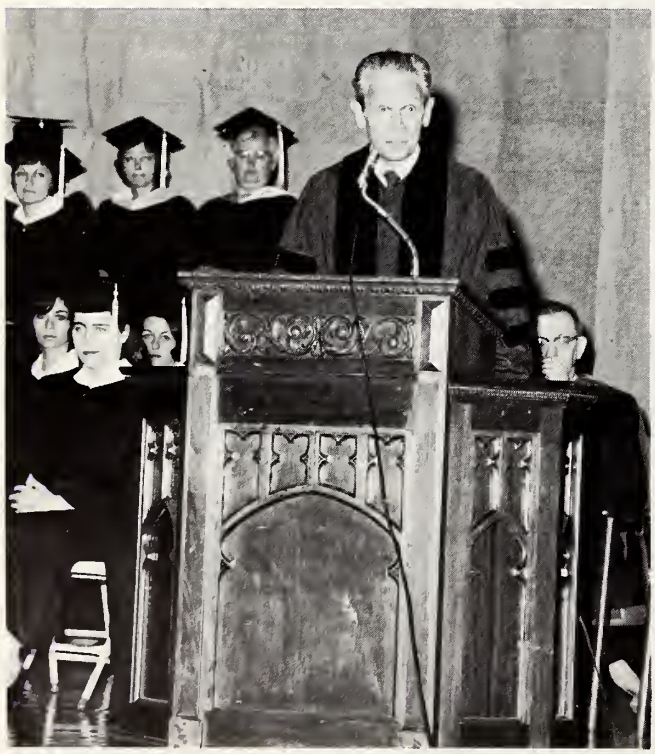
GRADUATION

The GRADUATING CLASS OF 1969.



Dr. Maurice B. Mitchell delivers Commencement Address.

Members of the Sophomore Daisy Chain in line for the graduates.

"Hey Mom, our class got 10% fewer cavities . . ."

"Well, Mom, I'm a Teacher . . ."

It may be that we should stop putting so much emphasis in our own minds on the monetary value of a college education and put more emphasis on the intangible social and cultural values to be derived from learning. The time may be coming when we will have to start accepting the idea that education is life, not merely a preparation for it.

Seymour E. Harris

— DEDICATION —

What is a Dean — a man with qualities of understanding, empathy, sincerity — a mediator between a student body and conformity. Through guidance and concern, he works to provide the opportunity for change and strength in each class. Authority and instruction are an important part of his job, but the emotion and dedication he offers to the people he represents is what binds the closeness between administration and students. As a class, we realize that we are about to step into a new pathway of life — a future of opportunities that will lead us on our separate ways. However, due to the closeness of the school, we hope to stay together in mind if not in proximity.

As members of the graduating class of 1969, we take great pride in dedicating this yearbook to you, Dr. Dean Robert Greising. For it is you whose teaching reflects a sincere devotion to your profession as well as to your students.
